Since 2005 I have been working in Real Estate as a buyer's agent, covering Cambridge, Arlington, Somerville, and the surrounding areas, helping buyers find the right home, at the best price.

GRAPHIC DESIGN

2000-2006 • I have designed, photo edited, and produced commemorative photographic books by a local photographer, published by Royalston Press, Arlington. Clients include: Avon Old Farms School and Salisbury School, Connecticut; Emory University, Atlanta; Aloha Camps, Vermont; and Wesleyan University, Connecticut. These full color books involved extensive collaboration with the photographer, client, and with the printer in China.

1980-1999 • Design and photo editing of a wide range of trade and educational materials ranging from the books that accompanied *The Victory Garden* on WGBH, to textbooks both ELHI and college. I was a founding partner of *Designworks, Inc.* in Cambridge, a company providing design and production services to publishers. Clients included: Houghton Mifflin, Boston; DC Heath, Lexington; Atlantic Monthly Press, Boston; Little Brown/WGBH, Boston, and many others. I also art directed *Horticulture* magazine for several years.

I have been teaching assistant for a Lesley University course in digital imaging and printing at both the Art Institute of Boston, and Lesley.

PHOTOGRAPHY Working in both color and black and white, usually determined by the subject matter, my areas of interest come from my background in graphic design, and include abstract graphic forms and patterns, in nature, architecture, landscape, and reflections and layers.
